OFFICE OF PETITIONS

Applicant: Cutler
Appl. No.: 10/672,075
Filing Date: September 29, 2003
Title: METHOD AND APPARATUS FOR CONTROLLING POWER DRAWN FROM AN
ENERGY CONVERTER
Attorney Docket No.: XANI121763
Pub. No.: US 2005/0068012 A1
Pub. Date: March 31, 2005

This is a decision on the request for a corrected patent application publication under
37 CFR 1.221(b), filed on May 31, 2005, for the above-identified application.

The request is granted.

The corrected patent application publication will be published in due course, unless the patent
issues before the application is republished.

It would greatly benefit the Office if applicant did not provide a complete copy of the pregrant
publication, as it unnecessarily increases the cost to the Office. See 37 CFR 1.4(b). A request
for corrected publication need only point out what was printed incorrectly in the application,
where the error occurs in the publication and where the correct text is found in the application
papers. Marked up relevant copies of the applications papers and the pre-grant publication may
facilitate processing of the request, where it is not readily apparent. If it is not clear why the
error is a material error, further explanation may be warranted.

Inquiries relating to this matter may be directed to Mark Polutta at (571) 272-7709 (voice).
